12 June 2012

APPOINTMENT - TECHNICAL SERVICES MANAGER

Beadell Resources Limited (“**Beadell**” “the **Company**”) is pleased to advise that Mr Jim Jewell, currently a Non-Executive Director, has accepted the newly created role of Technical Services Manager as the Company nears commencement of operations at its Tucano Gold Project in Brazil. In order to take on this executive position, Mr Jewell will step down as a director of the Company effective today.

Mr Jewell is a Mining Engineer with over 30 years experience in the extraction of gold, nickel, tin and uranium. He has a strong technical and operations background, having been a Mine General Manager in Western Australia for 7 years and responsible for the execution of numerous large overseas mining projects. He has recently fulfilled a similar technical services support role for Barrack Gold at its Australian operations.

Managing Director Peter Bowler commented “This is very good news for Beadell. Jim’s extensive experience in operating mines will be invaluable for the Company as we move into the production phase over the coming months. Jim’s deep knowledge and enthusiasm for continuous improvement will enhance our excellent site based management team.”

Mr Jewell’s decision to step down from the Board is consistent with the Company’s policy of maintaining a majority of independent non-executive directors.
